

KREATE

Aquapro™ Water Based Architectural & Industrial Colorants

Aquapro™ is a complete POS (point of sale) & Inplant colorant system designed for the most modern architectural and industrial water based coating systems and suitable for most traditional architectural coating technologies. Its broad pigment selection makes it the most versatile and encompassing modern colorant series available today.

Aquapro™ technology is water borne, VOC free, and utilises the latest chemistry to produce the highest performance colorants. This ensures the coating technology is as unaffected as possible after tinting and in some technologies even enhanced. Unlike traditional 'universal' tinting systems Aquapro™ uses a combination of traditional and advanced pigments and allows the coatings producer to make a unique system based on their market requirements, be they technical, colouristic or commercial.

Aquapro™ is also suitable for use in water reducible epoxys, acrylics and alkyds and provides a POS as well as Inplant solution (if required). The system design enables modular concepts of colorant selection and therefore be-spoke systems to be built based on customers own market requirements. The entire concept of the system is based around providing the latest technology in a format which allows the coatings producer to define and control exactly the system that they want, without compromise.

Starting with a core of normally 8 colorants you can then select further colorants to complete your system from a selection of 21 extra Aquapro™ colorants.

The base paint structure of the system is totally open and can be defined entirely by the coatings producer or in conjunction with KREATE.

Advantages

- 'State of the art' water borne technology
- Comprehensive pigment selection
- Modular colorant system - tailor made solutions
- VOC Free compliant
- Broad inorganic pigment selection
- High Performance & commercial pigments
- 'Specialist' pigments included in the range
- Complete with matching database whatever colorant selection
- Complete POS & Inplant solution
- Commercially competitive system
- Total formulation support

 AP01 White	 AP16 Chrome Oxide Green
 AP02 Black	 AP17 BiVa Yellow
 AP03 Yellow Oxide	 AP18 Orange Oxide
 AP04 Red Oxide Y	 AP19 Red Oxide (Blue)
 AP05 Yellow HP	 AP20 Cobalt Green
 AP06 Red HP	 AP21 Chrome Titan Yellow
 AP07 Blue G	 AP22 IR Black
 AP08 Green	 AP23 Ultramarine Blue
 AP09 Magenta	 AP24 JET Black
 AP10 Orange	 AP25 Trans. Yellow oxide
 AP11 Violet	 AP26 Trans. Red Oxide
 AP12 Yellow E	 AP27 BiVa Yellow (Red)
 AP13 Red E	 AP28 Black LC
 AP14 Black Oxide	 AP29 Red LC
 AP15 Cobalt Blue
